## CINTAS DOSE GLASS CANADA 10OZ 12CT

Version 1.2

Revision Date 12/21/2025

Print Date 12/21/2025

### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Material name : CINTAS DOSE GLASS CANADA 10OZ 12CT

Material number : 0000000000001050269

#### Manufacturer or supplier's details

Company : Zep Inc.

Address : 11627 - 178 Street  
Edmonton, Alberta T5S 1N6  
Canada

Telephone : Compliance Services - 877-428-9937

#### Emergency telephone numbers

**For SDS Information** : Compliance Services - 877-428-9937

**For a Medical Emergency** : 877-541-2016 Toll Free - All Calls Recorded

**For a Transportation  
Emergency** : CHEMTREC: 800-424-9300 - All Calls Recorded.

#### Recommended use of the chemical and restrictions on use

### SECTION 2. HAZARDS IDENTIFICATION

#### Emergency Overview

|            |          |
|------------|----------|
| Appearance | liquid   |
| Colour     | blue     |
| Odour      | pleasant |

#### GHS Classification

Skin irritation : Category 2

Serious eye damage : Category 1

#### GHS label elements

## CINTAS DOSE GLASS CANADA 10OZ 12CT

Version 1.2

Revision Date 12/21/2025

Print Date 12/21/2025

Hazard pictograms

:

Corrosion

Signal word

:

Danger

Hazard statements

:

H315 Causes skin irritation.  
H318 Causes serious eye damage.

Precautionary statements

:

**Prevention:**  
P264 Wash skin thoroughly after handling.  
P280 Wear protective gloves/ eye protection/ face protection.  
**Response:**  
P302 + P352 IF ON SKIN: Wash with plenty of water.  
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.  
P332 + P313 If skin irritation occurs: Get medical advice/ attention.  
P362 + P364 Take off contaminated clothing and wash it before reuse.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture

: Mixture

#### Hazardous components

| Chemical name          | CAS-No.  | Concentration [%] * |
|------------------------|----------|---------------------|
| 2-butoxyethanol        | 111-76-2 | >= 30 - < 60        |
| 2-dimethylaminoethanol | 108-01-0 | >= 1 - < 5          |

\* The exact percentages of disclosed substances are withheld as trade secrets.

### SECTION 4. FIRST AID MEASURES

General advice

: Move out of dangerous area.  
Consult a physician.

Show this safety data sheet to the doctor in

attendance.

Do not leave the victim unattended.

|                                                             |                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If inhaled                                                  | : If unconscious, place in recovery position and seek medical advice.<br>If symptoms persist, call a physician.                                                                                                                                                                                                                                                                                 |
| In case of skin contact                                     | : If skin irritation persists, call a physician.<br>If on skin, rinse well with water.<br>If on clothes, remove clothes.                                                                                                                                                                                                                                                                        |
| In case of eye contact                                      | : Small amounts splashed into eyes can cause irreversible tissue damage and blindness.<br>In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.<br>Continue rinsing eyes during transport to hospital.<br>Remove contact lenses.<br>Protect unharmed eye.<br>Keep eye wide open while rinsing.<br>If eye irritation persists, consult a specialist. |
| If swallowed                                                | : Clean mouth with water and drink afterwards plenty of water.<br>Keep respiratory tract clear.<br>Do NOT induce vomiting.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician.<br>Take victim immediately to hospital.                                                                              |
| Most important symptoms and effects, both acute and delayed | : Effects are immediate and delayed.<br>Effects are dependent on exposure (dose, concentration, contact time).<br>Causes skin irritation.<br>Causes serious eye damage.<br>Review section 2 of SDS to see all potential hazards.                                                                                                                                                                |
| Notes to physician                                          | : Treat symptomatically. Symptoms may be delayed.                                                                                                                                                                                                                                                                                                                                               |

---

### SECTION 5. FIREFIGHTING MEASURES

|                                      |                                                                             |
|--------------------------------------|-----------------------------------------------------------------------------|
| Suitable extinguishing media         | : Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.  |
| Unsuitable extinguishing media       | : High volume water jet                                                     |
| Specific hazards during firefighting | : Do not allow run-off from fire fighting to enter drains or water courses. |

Version 1.2

Revision Date 12/21/2025

Print Date 12/21/2025

|                                               |                                                                                                                                                                                                                           |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hazardous combustion products                 | : Carbon dioxide (CO <sub>2</sub> )<br>Carbon monoxide<br>Smoke<br>Nitrogen oxides (NO <sub>x</sub> )                                                                                                                     |
| Specific extinguishing methods                | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                                                                 |
| Further information                           | : Collect contaminated fire extinguishing water separately. This must not be discharged into drains.<br>Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |
| Special protective equipment for firefighters | : Wear self-contained breathing apparatus for firefighting if necessary.                                                                                                                                                  |

---

### SECTION 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                            |
|---------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Use personal protective equipment.                                                                                                                                                       |
| Environmental precautions                                           | : Prevent product from entering drains.<br>Prevent further leakage or spillage if safe to do so.<br>If the product contaminates rivers and lakes or drains, inform respective authorities. |
| Methods and materials for containment and cleaning up               | : Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).<br>Keep in suitable, closed containers for disposal.                              |

---

### SECTION 7. HANDLING AND STORAGE

|                             |                                                                                                                                                                                                                                          |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling     | : Avoid contact with skin and eyes.<br>For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the application area.<br>Dispose of rinse water in accordance with local and national regulations. |
| Conditions for safe storage | : Keep container tightly closed in a dry and well-ventilated place.<br>Electrical installations / working materials must comply with the technological safety standards.                                                                 |
| Materials to avoid          | : Acids<br>Oxidizing agents                                                                                                                                                                                                              |

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

| Components             | CAS-No.  | Value type<br>(Form of exposure) | Control parameters /<br>Permissible concentration | Basis     |
|------------------------|----------|----------------------------------|---------------------------------------------------|-----------|
| 2-butoxyethanol        | 111-76-2 | TWA                              | 20 ppm<br>97 mg/m3                                | CA AB OEL |
|                        |          | TWA                              | 20 ppm                                            | CA BC OEL |
|                        |          | TWAEV                            | 20 ppm<br>97 mg/m3                                | CA QC OEL |
|                        |          | TWA                              | 20 ppm                                            | ACGIH     |
| 2-dimethylaminoethanol | 108-01-0 | TWA                              | 3 ppm<br>11 mg/m3                                 | CA ON OEL |
|                        |          | STEL                             | 6 ppm<br>22 mg/m3                                 | CA ON OEL |

#### Biological occupational exposure limits

| Components      | CAS-No.  | Control parameters      | Biological specimen | Sampling time                                            | Permissible concentration | Basis     |
|-----------------|----------|-------------------------|---------------------|----------------------------------------------------------|---------------------------|-----------|
| 2-BUTOXYETHANOL | 111-76-2 | Butoxyacetic acid (BAA) | Urine               | End of shift (As soon as possible after exposure ceases) | 200 mg/g Creatinine       | ACGIH BEI |

**Engineering measures** : effective ventilation in all processing areas

#### Personal protective equipment

**Respiratory protection** : In case of insufficient ventilation, wear suitable respiratory equipment.

#### Hand protection

**Material** : Protective gloves

**Remarks** : The suitability for a specific workplace should be discussed with the producers of the protective gloves.

# SAFETY DATA SHEET

## CINTAS DOSE GLASS CANADA 10OZ 12CT

Version 1.2

Revision Date 12/21/2025

Print Date 12/21/2025

- Eye protection : Access to clean water to rinse eyes must be available, options include: eye wash stations or showers, or eye wash bottles with pure water.
- Tightly fitting safety goggles
- Wear face-shield and protective suit for abnormal processing problems.
- Skin and body protection : Impervious clothing
- Choose body protection according to the amount and concentration of the dangerous substance at the work place.
- Hygiene measures : When using do not eat or drink.
- When using do not smoke.
- Wash hands before breaks and at the end of workday.

---

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

- Physical state : liquid
- Colour : blue
- Odour : pleasant
- Odour Threshold : No data available
- pH : 10.7
- Melting point/freezing point : No data available
- Boiling point : No data available
- Flash point : > 93.4 °C
- Upper explosion limit : No data available
- Lower explosion limit : No data available
- Vapour pressure : No data available
- Density : 0.986 g/cm<sup>3</sup>
- Solubility(ies)
- Water solubility : soluble

Version 1.2

Revision Date 12/21/2025

Print Date 12/21/2025

Partition coefficient: n-octanol/water : No data available

Viscosity

Viscosity, kinematic : No data available

---

### SECTION 10. STABILITY AND REACTIVITY

Reactivity : Stable

Chemical stability : Stable under normal conditions.

Possibility of hazardous reactions : No decomposition if stored and applied as directed.

Conditions to avoid : No data available

Incompatible materials : Acids  
Oxidizing agents

---

### SECTION 11. TOXICOLOGICAL INFORMATION

#### Potential Health Effects

Aggravated Medical Condition : None known.

Symptoms of Overexposure : Effects are immediate and delayed.  
Effects are dependent on exposure (dose, concentration, contact time).  
Causes skin irritation.  
Causes serious eye damage.  
Review section 2 of SDS to see all potential hazards.  
Treat symptomatically. Symptoms may be delayed.

#### Carcinogenicity:

##### IARC

No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

##### ACGIH

Confirmed animal carcinogen with unknown relevance to humans

2-butoxyethanol

111-76-2

Print Date 12/21/2025

### Acute toxicity

#### Product:

Acute oral toxicity : Acute toxicity estimate : 2,090 mg/kg  
Method: Calculation method

Acute inhalation toxicity : Acute toxicity estimate : 28.15 mg/l  
Exposure time: 4 h  
Test atmosphere: vapour  
Method: Calculation method

Acute dermal toxicity : Acute toxicity estimate : 2,723 mg/kg  
Method: Calculation method

#### Components:

##### **2-butoxyethanol:**

Acute oral toxicity : LD50 Oral Rat: 880 mg/kg

Acute dermal toxicity : LD50 Dermal Rabbit: 1,060 mg/kg

### Skin corrosion/irritation

#### Product:

Remarks: Extremely corrosive and destructive to tissue.

### Serious eye damage/eye irritation

#### Product:

Remarks: May cause irreversible eye damage.

### Respiratory or skin sensitisation

No data available

### Germ cell mutagenicity

No data available

### Carcinogenicity

No data available

### Reproductive toxicity

No data available

### STOT - single exposure

No data available

### STOT - repeated exposure

No data available

### Aspiration toxicity

No data available

### Further information

#### Product:

Remarks: No data available

---

## SECTION 12. ECOLOGICAL INFORMATION

### Ecotoxicity

No data available

### Persistence and degradability

No data available

### Bioaccumulative potential

#### Product:

Partition coefficient: n-octanol/water : Remarks: No data available

#### Components:

##### **2-dimethylaminoethanol :**

Partition coefficient: n-octanol/water : Pow: 0.55

### Mobility in soil

No data available

### Other adverse effects

No data available

### **Product:**

Additional ecological information : No data available

---

## SECTION 13. DISPOSAL CONSIDERATIONS

### **Disposal methods**

Waste from residues : Do not dispose of waste into sewer.  
Do not contaminate ponds, waterways or ditches with chemical or used container.  
Dispose of in accordance with local regulations.

Contaminated packaging : Empty remaining contents.  
Dispose of as unused product.  
Do not re-use empty containers.

---

## SECTION 14. TRANSPORT INFORMATION

Transportation Regulation (TDG) / Règlement Pour Le Transport (TMD): (Canada):  
NOT REGULATED AS DANGEROUS GOODS OR HAZARDOUS MATERIAL

Transportation Regulation / Règlement Pour Le Transport: IMDG (Vessel):
