## ZEP FUZION AB FOAMING HAND SOAP 1200ML 4CT

Version 1.3

Revision Date 12/21/2025

Print Date 12/21/2025

### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Material name : ZEP FUZION AB FOAMING HAND SOAP 1200ML 4CT  
DIN ID # : 02472236  
Material number : 338816C

#### Manufacturer or supplier's details

Company : Zep Inc.  
Address : 11627 - 178 Street  
Edmonton, Alberta T5S 1N6  
Canada  
Telephone : Compliance Services - 877-428-9937

#### Emergency telephone numbers

|                                |                                                |
|--------------------------------|------------------------------------------------|
| For SDS Information            | : Compliance Services - 877-428-9937           |
| For a Medical Emergency        | : 877-541-2016 Toll Free - All Calls Recorded  |
| For a Transportation Emergency | : CHEMTREC: 800-424-9300 - All Calls Recorded. |

#### Recommended use of the chemical and restrictions on use

This product is regulated under the Canadian Federal Food and Drug Regulations of Health Canada. The warnings presented below in this Safety Data Sheet (SDS) comply with the WHMIS 2015 Hazardous Products Regulation (GHS - Globally Harmonized System of Classification and Labeling). The requirements for the labeling and warnings of product regulated under the Canadian Federal Food and Drug Regulations of Health Canada may differ from those required for GHS based hazard communication.

### SECTION 2. HAZARDS IDENTIFICATION

#### Emergency Overview

|            |        |
|------------|--------|
| Appearance | liquid |
|------------|--------|

| Colour | light orange      |
| Odour  | No data available |

### GHS Classification

Serious eye damage : Category 1

### GHS label elements

Hazard pictograms :

Corrosion

Signal word : Danger

Hazard statements : H318 Causes serious eye damage.

Precautionary statements : **Prevention:**  
P280 Wear eye protection/ face protection.  
**Response:**  
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

### Hazardous components

| Chemical name                                   | CAS-No.    | Concentration [%] * |
|-------------------------------------------------|------------|---------------------|
| cetrimonium chloride                            | 112-02-7   | >= 1 - < 5          |
| glycerol                                        | 56-81-5    | >= 1 - < 5          |
| N-[3-(dimethylamino)propyl]dodecanamide N-oxide | 61792-31-2 | >= 1 - < 5          |

\* The exact percentages of disclosed substances are withheld as trade secrets.

## SECTION 4. FIRST AID MEASURES

General advice : Move out of dangerous area.

Show this safety data sheet to the doctor in attendance.

Do not leave the victim unattended.

|                                                             |                                                                                                                                                                                                                                                                         |
|-------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If inhaled                                                  | : If unconscious, place in recovery position and seek medical advice.<br>If symptoms persist, call a physician.                                                                                                                                                         |
| In case of skin contact                                     | : This product is formulated for use on skin but should always be immediately washed off with plenty of water. Discontinue use if irritation and redness develop. If conditions persist for more than 72 hours, consult a physician.                                    |
| In case of eye contact                                      | : Remove contact lenses.<br>Protect unharmed eye.<br>If in eyes, rinse with water for 15 minutes.<br>Keep eye wide open while rinsing.<br>If eye irritation persists, consult a specialist.                                                                             |
| If swallowed                                                | : Keep respiratory tract clear.<br>Never give anything by mouth to an unconscious person.<br>DO NOT induce vomiting unless directed to do so by a physician or poison control center.<br>If symptoms persist, call a physician.<br>Take victim immediately to hospital. |
| Most important symptoms and effects, both acute and delayed | : Effects are immediate and delayed.<br>Effects are dependent on exposure (dose, concentration, contact time).<br>Symptoms may include blistering, irritation, burns, and pain.<br>Causes serious eye damage.<br>Review section 2 of SDS to see all potential hazards.  |
| Notes to physician                                          | : Treat symptomatically. Symptoms may be delayed.                                                                                                                                                                                                                       |

---

### SECTION 5. FIREFIGHTING MEASURES

|                                      |                                                                             |
|--------------------------------------|-----------------------------------------------------------------------------|
| Suitable extinguishing media         | : Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.  |
| Unsuitable extinguishing media       | : High volume water jet                                                     |
| Specific hazards during firefighting | : Do not allow run-off from fire fighting to enter drains or water courses. |
| Hazardous combustion products        | : Carbon dioxide (CO <sub>2</sub> )<br>Carbon monoxide                      |

Revision Date 12/21/2025

Print Date 12/21/2025

|                                               |                                                                                                                                                                                                                           |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific extinguishing methods                | : Smoke<br>: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                                                      |
| Further information                           | : Collect contaminated fire extinguishing water separately. This must not be discharged into drains.<br>Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |
| Special protective equipment for firefighters | : Wear self-contained breathing apparatus for firefighting if necessary.                                                                                                                                                  |

---

### SECTION 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                            |
|---------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Material can create slippery conditions.<br>Use non-slip safety shoes in areas where spills or leaks can occur.<br>Refer to protective measures listed in sections 7 and 8.              |
| Environmental precautions                                           | : Prevent product from entering drains.<br>Prevent further leakage or spillage if safe to do so.<br>If the product contaminates rivers and lakes or drains, inform respective authorities. |
| Methods and materials for containment and cleaning up               | : Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).<br>Keep in suitable, closed containers for disposal.                              |

---

### SECTION 7. HANDLING AND STORAGE

|                             |                                                                                                                                                                                                                                                                                                 |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling     | : For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the application area.<br>To avoid spills during handling keep bottle on a metal tray.<br>Avoid contact with eyes.<br>Dispose of rinse water in accordance with local and national regulations. |
| Conditions for safe storage | : Keep container tightly closed in a dry and well-ventilated place.<br>Containers which are opened must be carefully resealed and kept upright to prevent leakage.                                                                                                                              |
| Materials to avoid          | : No materials to be especially mentioned.                                                                                                                                                                                                                                                      |

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

| Components | CAS-No. | Value type<br>(Form of exposure) | Control parameters /<br>Permissible concentration | Basis     |
|------------|---------|----------------------------------|---------------------------------------------------|-----------|
| glycerol   | 56-81-5 | TWA (Mist)                       | 10 mg/m3                                          | CA BC OEL |
|            |         | TWA<br>(Respirable mist)         | 3 mg/m3                                           | CA BC OEL |
|            |         | TWA (Mist)                       | 10 mg/m3                                          | CA AB OEL |
|            |         | TWAEV<br>(Mist)                  | 10 mg/m3                                          | CA QC OEL |

**Engineering measures** : effective ventilation in all processing areas

#### Personal protective equipment

**Respiratory protection** : In case of insufficient ventilation, wear suitable respiratory equipment.

#### Hand protection

**Remarks** : No special protection is required.

**Eye protection** : Eye protection is not required while washing with this product.

In the workplace, the use of safety glasses is recommended to avoid eye exposure during the handling of containers or during spill clean-up.

**Skin and body protection** : No special protection is required.

**Hygiene measures** : When using do not eat or drink.  
When using do not smoke.

Wash hands before breaks and at the end of workday.

## ZEP FUZION AB FOAMING HAND SOAP 1200ML 4CT

Version 1.3

Revision Date 12/21/2025

Print Date 12/21/2025

Hazardous decomposition products : Carbon oxides

---

### SECTION 11. TOXICOLOGICAL INFORMATION

#### Potential Health Effects

Aggravated Medical Condition : None known.

Symptoms of Overexposure : Effects are immediate and delayed.  
Effects are dependent on exposure (dose, concentration, contact time).  
Symptoms may include blistering, irritation, burns, and pain.  
Causes serious eye damage.  
Review section 2 of SDS to see all potential hazards.  
Treat symptomatically. Symptoms may be delayed.

#### Carcinogenicity:

##### IARC

No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

##### ACGIH

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

#### Acute toxicity

##### Product:

Acute oral toxicity : Acute toxicity estimate : 3,508 mg/kg

Method: Calculation method

#### Skin corrosion/irritation

##### Product:

Result: No skin irritation

#### Serious eye damage/eye irritation

##### Product:

Remarks: May cause irreversible eye damage.

#### Respiratory or skin sensitisation
