

SAFETY DATA SHEET

QUAT RINGS

SECTION 1 CHEMICAL PRODUCT IDENTIFICATION

January 1, 2021

Product name:	QUAT RINGS
Product. No:	
Synonymous:	Odor Control system
Chemical name:	Mixture
CAS No:	Mixture
Uses:	Odor Control
Uses advised against:	Personal care
Manufacturer:	Diken de México SA de CV Avenida Industria Aeroespacial # 2900 Parque industrial Ramos Arizpe, Ramos Arizpe Coahuila, México CP 25900 +52 (844) 866 95 20
National Supplier:	Diken International 2940 Wesley Way, Richland Hills, TX 76118 Phone: 817 284 3388
Emergency Telephone:	CHEMTREC 1-800-424-9300

SECTION 2. HAZARDS IDENTIFICATION

Signs and Symptoms of Acute Exposure:

Eyes: Irritates on contact. Corneal damage possible with extended exposure

Inhalation: Vapors can irritate the throat and respiratory tract. High vapor concentrations may affect central nervous system. Symptoms may include headaches, dizziness, and drowsiness. Harmful if inhaled.

Skin: If allowed to remain on skin for extended periods of time irritation may occur.

Ingestion: Toxic by ingestion. Harmful if swallowed

Chronic Health Effects: Not known.

Conditions Aggravated by Exposure: Persons with pre-existing skin disorders, eye problems or impaired respiratory function may be more susceptible to the effects of the substance.

Harmful if swallowed

Classification

(Hazard Class and Category Code— GHS)

Risk Phrases (Hazard statement— GHS)

Precautionary statements

Wash hands thoroughly after handling

Wear protective gloves

Do not eat, drink or smoke when using this product

SECTION 3 COMPOSITION/INFORMATION ON INGREDIENTS

Chemical name	Synonymous	CAS #	EINECS #	%Wt
Benzethonium chloride	Ammonium quaternary salt	121-54-0	Not found	10
We are only reporting materials which help on the product hazard classification.				

SECTION 4. FIRST AIDS MEASURES

General: In the event of health problems or if in doubt, inform the physician and provide this SDS.

Eye contact: Immediately rinse eyes thoroughly in running cool water for at least 15 minutes. If irritation persists, or swelling occurs get medical attention at once, preferably with an ophthalmologist.

Inhalation: Remove from exposure. Administer oxygen if breathing is difficult. Get medical help immediately.

Skin contact: Flush skin with water; wash with soap and water. Remove and wash contaminated clothing before reuse. If irritation or discomfort persists, call a physician.

Ingestion: Rinse mouth; then drink 1 or 2 large glasses of water. DO NOT induce vomiting. NEVER give anything by mouth to an unconscious person. If irritation or discomfort persists, call a physician.

NOTES TO PHYSICIAN: No specialized procedures. Treat for clinical symptoms.

SECTION 5. FIREFIGHTING MEASURES

General fire hazards:

Suitable extinguishing media: Water, Carbon dioxide, Dry chemical, foam.

Unsuitable extinguishing media: None Known

Specific hazards: Carbon monoxide, Carbon dioxide gases (toxic) and Nitrogen Oxides (Toxic!) liberated during combustion.

Special protective equipment: Always wear self-contained breathing apparatus when fighting a chemical fire.

SECTION 6. ACCIDENTAL RELEASE MEASURES

PERSONAL PROTECTION: Follow protective measures provided under Personal Protection in Section 8. Evacuate all unnecessary personnel and eliminate all sources of ignition.

ENVIRONMENTAL PRECAUTIONS: Keep large spills from contacting vegetation or entering waterways.

METHODS FOR CLEANING UP. Capture material and contain for disposal, according with local, state, and federal regulations. Remainder may be diluted with enough water, and then rinsed to a sewer.

SECTION 7. HANDLING AND STORAGE

HANDLING: Avoid breathing vapors. Wear personal protection equipment as described in Exposure Controls/Personal Protection (Section 8) of the SDS. Never move drums with open bungs.

SPECIAL MIXING AND HANDLING INSTRUCTIONS: Do not allow contact with materials as noted in

Section 10.

STORAGE: Keep container tightly closed and properly labeled. Store in a cool dry location.

Supplier not responsible for disposition of this product. Do not reuse container.

Specific use(s): This product is used as an industrial odor control product, it is not to be used for purposes other than those recommended.

SECTION 8. EXPOSURE CONTROL/ PERSONAL PROTECTION INFORMATION

ENGINEERING CONTROLS: Handle product in a well ventilated area. If product is handled in an open system, the use of process closures, local exhaust, ventilation, and or other engineering controls should be considered to control airborne levels to below recommended exposure limits, or below acceptable levels where there are no limits.

PERSONAL PROTECTION:

RESPIRATORY: A NIOSH approved respirator with a dust, fume and mist filter may be permissible when symptoms have been observed that are indicative of overexposure.

A respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed when ever workplace conditions warrant use of respirator.

EYE/FACE: Wear chemical safety goggles to protect against contact when appropriate. (ANSIZ87.1)

SKIN: Wear protective clothing to minimize skin contact. Wear chemical resistant glove such as rubber, neoprene or vinyl.

OTHER: Launder contaminated clothing before use. Emergency shower and eyewash facility should be in close proximity (ANSI Z358.1)

Environmental exposure controls:

Environmental exposure controls should be in accordance with applicable regional, national, and local laws and regulations.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES.

Color	White to beige
Odor	Benzaldehyde organic odor
Odor Threshold	Not applicable
pH 1% v/v	N/D
Softening point	Not applicable
Boiling point	Not applicable
Flash point	Not applicable
Evaporation rate	Not determined
Flammability (solid, gas)	Non flammable
Flammability limit upper	Not applicable
Flammability limit lower	Not applicable
Auto ignition temperature	Not Applicable
Vapor pressure	Not applicable
Vapor density (air=1)	Not determined
Specific Gravity	Not determined
Solubility in water	75%.
Solubility (other)	No data available
Partition coefficient (n-octanol-water)	Not applicable

Viscosity	Not determined
Explosive properties	Not applicable

SECTION 10. STABILITY AND REACTIVITY

Stability:	This product should maintain its physical character when stored closed at moderate temperatures, between 28°F and 105°F.
Conditions to avoid:	Extreme heat and extreme cold.
Substances to avoid:	Incompatible with copper or copper-alloys. Also avoid strong acids, strong bases, and strong oxidizers. Also avoid contact with nitrates. Mixing with hypochlorite (bleach) forms explosive nitrogen trichloride.
Decomposition products:	Carbon monoxide, Carbon dioxide gases (toxic) liberated during combustion. Nitrogen Oxides (Toxic!) liberated during combustion.
Hazardous polymerization:	This product does not polymerize under normal storage and use conditions.
Reactions with air and water:	Not known.
Advise to prevent explosion:	Keep away from source of flame.

SECTION 11. TOXICOLOGICAL INFORMATION

For CAS # 121-54-0:
Carcinogenicity: No carcinogenicity data available for this product.
Acute oral LD50: > 420 mg/Kg in rats
Acute dermal LD50: > 3000 mg/Kg in rabbits
Primary skin irritation on rabbit: Severe
Primary eye irritation on rabbit: Irritant

SECTION 12. ECOLOGICAL INFORMATION

No data available for this product but is considered toxic to fish.

SECTION 13. DISPOSAL CONSIDERATIONS

This substance, when discarded or disposed of, is a characteristic hazardous waste according to Federal regulation (40 CFR 261) and is assigned the EPA Hazardous Waste Number of D001. The discarding or disposal of this material must be done at a properly permitted facility in accordance with the regulations of 40 CFR 262, 263, 264, and 268. Additionally, the discarding or disposal of this material may be further regulated by state, regional, or local regulations. Chemical additions, processing or otherwise altering this material may make the waste management information presented in this SDS incomplete, inaccurate or otherwise

inappropriate. The transportation, storage, treatment and disposal of this waste material must be conducted in compliance with all applicable Federal, State, and local regulations.

SECTION 14. TRANSPORT INFORMATION.

INTERNATIONAL:

LD50: Lethal Dose, dose of a chemical which kills 50% of a sample population

OSHA: Occupational Safety and Health Administration

NFI: Not found information

The information in this Safety Data Sheet should be provided to all who use, handle, transport, or otherwise are exposed to this product. This information has been prepared for the guidance of plant engineering, operations, management and persons working with or handling this product. The information presented in this SDS is premised upon proper handling and anticipated uses, and is for the material without chemical additions/alterations. Additionally, if this Safety Data Sheet is more than three years old, please contact this supplier at the phone number above in Section 1 to make sure this sheet is current.

Prepared by: Diken International, Technical department

The information and recommendations contained herein are based upon data believed to be correct. No Warranty, expressed or implied, is made.
