

SAFETY DATA SHEET

Page: 1
DATE PREPARED:
01/10/2022
SDS No: AF-110

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Identifier: AF-110

MANUFACTURER:
ICONX Chemicals, LLC
4160 Washington Rd. #7
McMurray, PA 15317

24 HR. EMERGENCY TELEPHONE NUMBERS:

Emergency Phone 800-535-5053
Customer Service: 888-918-0658

2. HAZARDS IDENTIFICATION

Hazard Classifications: Toxic to aquatic life

Signal Word: WARNING!

TOXIC TO AQUATIC LIFE

Precautionary Statements:

May cause eye irritation—wear appropriate eye protection when handling.

Product spills are extremely slippery: prevent foot traffic in area of spill.

Prevent spills from contaminating natural waterways.

Non-Classified Hazards: None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient Name	CAS Number	net % by weight
Formaldehyde	50-00-0	< 0.1
Silicone fluid compound	n.a.	10

4. FIRST AID MEASURES

Skin Contact: Prolonged contact with skin may produce irritation. Remove contaminated clothing and flush contact area with water for 15 minutes. Seek medical attention if irritation persists.

Eye Contact: Contact with eyes may result in irritation. Immediately flush eyes with water or ophthalmic rinse solution; continue flushing with water for 15 minutes to remove any residual material. If irritation persists, seek medical attention.

Inhalation: Inhalation of product mists may cause respiratory irritation. Move victim to fresh air. If breathing is difficult, provide oxygen. If irritation persists, seek medical attention.

Ingestion: Ingestion may result in gastrointestinal discomfort. If victim is conscious, provide water or milk to dilute ingested material. Do not induce vomiting unless instructed by a physician or Poison Control Center. Get immediate medical attention.

5. FIRE FIGHTING MEASURES

Special Hazards: Thermal decomposition may produce hazardous CO, fumes and particulate silica. Wear self-contained breathing apparatus.

Extinguishing Media: For small fires, use A-B-C fire extinguisher. Large fires may be extinguished with any media suitable for the surrounding fire.

DATE PREPARED:
01/10/2022
SDS No: AF-110

6. ACCIDENTAL RELEASE MEASURES

First Responders should wear all recommended personal protective equipment outlined in Section 8. For large spill cleanup, personnel should wear a chemical-resistant splash suit or coveralls.

Prevent spills from contaminating natural waterways or municipal sewer systems. Use chemical-resistant spill control socks/booms to minimize spread of spill.

Reclaim as much spilled material as possible and return to original container. Use copious amount of water to flush spill residue to wastewater treatment system.

7. HANDLING AND STORAGE

Store at room temperature. Keep container closed when not in use.

Use containment devices to prevent uncontrolled spills.

Locate emergency eye wash/safety shower near area of use.

Do not eat, drink, or smoke while handling product; wash thoroughly with soap after handling.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Protective Equipment Requirements:

Safety glasses

Chemical-resistant gloves

Airborne Exposure Limits

Hazardous Ingredient

Exposure Limit

Formaldehyde

0.75 ppm TWA

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Opaque white liquid

Odor: Mild, sweet

pH, neat: 7.0 - 8.5

Specific Gravity: 1.0

Water solubility: Dispersible

Freezing/Boiling points, degrees F: < 32 / > 212

Viscosity: 1,000 – 1,500 cps

Flash point, degrees F: non-flammable

Upper/Lower explosive limits: non-flammable

Auto-ignition temperature: non-flammable

Decomposition temperature: n.a.

Vapor pressure/density: n.a.

Evaporation rate: n.a.

Octanol/Water partition coefficient: n.a.

10. STABILITY AND REACTIVITY

Chemical Stability: This product is stable under normal storage and use conditions. Keep container closed and prevent exposure to temperature extremes.

Reactivity: This product may react with strong oxidizing materials.

SAFETY DATA SHEET

DATE PREPARED: 01/10/2022
SDS No: AF-110

11. TOXICOLOGICAL INFORMATION

Likely route(s) of exposure: eye/skin contact

Product is composed of food-grade ingredients.

*Toxicity values are estimated.

Acute oral toxicity: LD50 , rat = > 5,000 mg/kg

Acute dermal toxicity: LD50, rabbit = > 5,000 mg/kg

Carcinogenicity/Teratogenicity: Product contains < 0.1% formaldehyde for preservative purposes.

12. ECOLOGICAL INFORMATION

Aquatic Toxicity

Fathead minnow, 96 hr LC50, = > 500 mg/l (actual value from similar product)

Daphnia magna, 48 hr EC50, = 6.28 mg/l (actual value from similar product)

Based on these test results, this product is expected to be slightly toxic to fish and moderately toxic to aquatic invertebrates. Prevent spills from entering natural waterways and sewer systems.

Biodegradability

No specific biodegradability data have been determined for this product.

Environmental Fate

This product would be gradually dispersed and biologically degraded in natural waterways and soil. The organic components are not anticipated to resist natural degradation or bioaccumulation.

13. DISPOSAL CONSIDERATIONS

Personnel responding to spills of this product should wear safety glasses, chemical-resistant gloves, and boots.

Small amounts of waste product may be safely flushed with water to wastewater treatment system. Larger quantities should be used up, if possible, or stored in sealed plastic containers for proper disposal at a licensed waste facility.

Empty containers should be triple-rinsed with water prior to recycling or disposal.

14. TRANSPORT INFORMATION

Proper shipping description: Compound, Defoaming

DOT Hazard Class(es): Not Regulated

CERCLA Reportable Spill Quantity (RQ) = No RQ

15. REGULATORY INFORMATION
