AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

IDENTITY (As Used on Label and List)

AWC A-110

Section 1 Company and Product Identification

AMERICAN WATER CHEMICALS® 1802 Corporate Center Lane Plant City, FL 33563 Telephone Number: (813)-246-5448	ChemTel phone Number: In the U.S.: 1-800-255-3924 International: 1-813-248-0585 Australia: 1-300-954-583 Brazil: 0-800-591-6042 China: 400-120-0751 India: 000-800-100-4086 Mexico: 800-099-0731
Date Prepared: 11/21/03	Date Revised: October, 2021

Trade Name	AWC A-110
Product Family	RO, NF Scale Inhibitor

Section 2 – Hazards Identification

Corrosive Liquid Signal Word: WARNING Acute Toxicity: Oral: Category 4 Harmful if Swallowed Skin Corrosion/Irritation: Category 2 Causes skin irritation in contact with skin. Inhalation: Category 4 Harmful if Inhaled Eye: Category 1 Causes serious eye damage.	
GHS Hazard Phrases	H302: Harmful if swallowed H315: Causes skin irritation H318: Causes serious eye damage H332: Harmful if inhaled
GHS Precaution Phrases	P264: Wash hands thoroughly after handling P260: Do not breathe dust, fumes, gas, vapor, spray. P280: Wear protective gloves, clothing, eye protection, face protection.
GHS Response Phrases	P301+312: IF SWALLOWED: call a poison center or doctor if you feel unwell P330: Rinse mouth P303+361+353: IF ON SKIN or hair Remove/take off all contaminated clothing rinse skin with water/shower P363: Wash contaminated clothing before reuse P305+351+338: IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. P301+330+331: IF SWALLOWED Rinse mouth do NOT induce vomiting. P304+340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

SAFETY DATA SHEET

Page 2

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

	P310:Immediately call a poison center
GHS Storage and Disposal Phrases	Please refer to section 7 for storage and section 13 for Disposal information

Route(s) of Entry:	Inhalation? Y	Skin? Y	Ingestion? Y
Health Hazards (Effects of Acute and Chronic Overexposure)			
Inhalation: Mist may cause injury to entire respiratory tract.			
Eye Contact: Will cause severe to permanent injury.			
Skin Contact: Contact with concentrated solutions may cause serious burn to human tissue.			
Ingestion (Swallowing): Damage throat area and gastro respiratory tract.			

Section 3 - Hazard Ingredients/Composition Information

Hazardous Components (Chemical Name)	CAS #	%	EC #	Risk Phrases
Proprietary blend containing Organophosphonic Acids	Trade Secret	>10%	N/A	R22-35

Section 4 – First Aid Procedures

Inhalation: Remove to fresh air and keep in rest position comfortable for breathing. Immediately call a POISON CENTER or doctor.
Eye Contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do, continue rinsing. Immediately call a POISON CENTER or doctor/physician.
Skin Contact: Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Immediately call a POISON CENTER or doctor/physician.
Ingestion (Swallowing): Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER/doctor/physician if you feel unwell. Call a doctor.

MOST IMPORTANT SYMPTOMS	
Symptoms/Injuries	Causes severe skin burns and eye damage
Symptoms/Injuries after eye contact	Causes severe eye damage
Symptoms/Injuries after ingestion	Swallowing a small quantity of this material will result in a serious health hazard.

Section 5 - Fire Fighting Measures

Flash Point (Method Used) None	Flammable Limits: NE
Extinguishing Media: Foam. Dry powder. Carbon dioxide. Water spray. Sand.	
Auto ignition temp: Noncombustible.	
Special Fire Fighting Procedures and Protective Equipment: Do not enter fire area without proper protective equipment, including respiratory protection. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Avoid (reject) fire-fighting water to enter environment.	
Unusual Fire and Explosion Hazards: This material is corrosive to all human tissue. It will react violently with many organic chemicals, especially nitrocarbons and chlorocarbons. Caustic potash reacts with zinc, aluminum, tin and other active metals liberating flammable hydrogen gas. Dilution with water evolves large amounts of heat.	

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

Hazardous Decomposition or Combustion Byproducts: Flammable hydrogen gas may be generated when product and certain metals react.

Section 6 – Accidental Release Measures

Steps to Be Taken in Case Material is Released or Spilled: Protective clothing and equipment must be worn by cleanup personnel. Contain spillage or leakage in suitable container or contain in a holding area. Do not allow drainage to sewers, streams or storm conduits. Recover with vacuum equipment such as a septic tank truck or neutralize with weak acid solutions and flush with water. Avoid splashing or misting which could increase health hazards.

Additional Information: Planning ahead is essential for handling spills. Proper equipment and trained employees should be readily available to correct a spill situation. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers and public waters. Avoid release to the environment.

Section 7 - Handling and Storage

Precautions to Be taken in Handling (General):	Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour. Do not breathe mist, vapours, spray. Do not eat, drink or smoke when using this product. Wash exposed skin thoroughly after handling. Wash contaminated clothing before reuse.
Precautions for safe storage and any incompatibilities	Comply with applicable regulations. Keep only in the original container in a cool, well ventilated place away from incompatible materials. Keep container closed when not in use. NOT compatible with strong acids. Sources of ignition. Keep away from direct sunlight.

Section 8 – Exposure Controls and Personal Protection

Components (Specific Chemical Identity; Common Name(s))	OSHA PEL	TWA8 ACGIH	STEL ACGIH	Other Limits Recommended
None has been established	None	None	None	NA

NR: NOT REQUIRED, NE: NOT ESTABLISHED, NA: NOT APPLICABLE

Primary Route of Exposure: Body contact.

Target Organs: All human tissue damaged on contact.

Respiratory Protection: Wear appropriate mask.

Skin Protection: Rubber or plastic-impervious and/or waterproof.

SAFETY DATA SHEET

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

Protective Gloves: Rubber, nitrile, neoprene, PVL.	Eye Protection: Splash proof safety goggles and face shield.
Other Protective Clothing or Equipment: Eye wash facility and safety shower in immediate area. Rubber boots. Rubbers over leather shoes are not recommended. Rubber apron, rainwear or disposal type suit with hard hat should be worn.	

Section 9 - Physical/Chemical Characteristics

Boiling Point: >100°C (212°F)	Percent Volatile: Approximately 50%
Viscosity: (Brookfield)@25°C:< 100 cps	Specific Gravity (H2O = 1): 1.25 ± 0.05
Crystallizing point: <0°C (32°F)	Vapor Pressure (mm Hg @ 20°C): NE
Solubility in Water: Complete	pH: < 2
Appearance and Odor: Clear, Colorless to light yellow liquid with a characteristic odor	

Section 10 – Stability & Reactivity Data

Stability: Stable under normal conditions.
Conditions to avoid: Do not expose to extreme temperatures.
Incompatibility (Materials to Avoid): Attacks Many metals. Corrosive to aluminum and mild steel. Avoid contact with strong oxidizing agents and strong bases.
Hazardous Decomposition Products: Carbon Monoxide(CO), Carbon dioxide, phosphorus oxides (PxOy), phosphines products
Hazardous Polymerization: Will not polymerize.
Additional Information: none

Section 11– Toxicological Information

Acute animal toxicity data: Oral: LD50, rat > 2,910 mg/kg. Slightly toxic following oral administration. Dermal: LD50, rabbit. > 6,310 mg/kg. Practically nontoxic after skin application in animal studies. Eye irritation: Rabbit, Moderately irritating, 24 h Skin irritation: Rabbit, Moderately irritating, 24 h Repeat dose toxicity: Rat, subcutaneous, repeat dose. Slight effects on bone mineralization were noted following subcutaneous injection. Repeat dose toxicity: Rat, diet, chronic. Produced effects on body weight, serum enzymes and/or organ weights in repeat dose studies. Target organs affected: Liver, spleen, kidneys Developmental toxicity: Rat, gavage. No birth defects were noted in rats given the active ingredient orally during pregnancy. Mouse, gavage. No birth defects were noted ill rats given the active ingredient orally during pregnancy. Reproductive toxicity: Rat, diet, 3 generation. This material had no effect on reproduction or fertility. Carcinogenicity: Rat, diet, 24 months, Chronic exposure to animals produced no increase in tumor
Mutagenic: Not listed.
Teratogenic: Not listed.
Reproductive Toxicity: Not listed.
Primary Route of Exposure: Body contact.
Target Organs: Not Listed

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

Section 12 – Ecological Information

Available data on closely related material indicates the following:

Environmental Fate

Movement & Partitioning: Based on information for a similar material: Bioconcentration potential is low (BCF less than 100 or log Pow less than 3).

Persistence and Degradability: Biodegradation under aerobic laboratory conditions is below detectable limits (BOD20 or BOD28/ThOD < 2.5%).

Biological oxygen demand (BOD):

BOD 5: 15%

BOD 10: 15%

BOD 20: 15%

BOD 28

Theoretical Oxygen Demand: 1.31 mg/mg

Ecotoxicity: Material is practically non-toxic to fish on an acute basis (LC50 > 100 mg/L) .

Fish acute and prolonged toxicity LC50, fathead minnow (*Pimephales promelas*): > 100 mg/L

Section 13 - Disposal Consideration

Waste Disposal Method: Dispose of spillage waste per company contingency plan and in accordance with federal, state, and local regulations. Neutralized waste is composed of salt and water.

Section 14 - Transport information

D.O.T. Proper Shipping Name: CORROSIVE LIQUID, N.O.S. (contains organophosphonic acid)	D.O.T. Hazard Class: 8 D.O.T. LABEL: CORROSIVE
ID No: UN 1760	Packing Group: III

Section 15 - Regulatory information

TSCA:

All components of this product are listed in the TSCA inventory.

SARA SECTION 312 HAZARD CLASS: Immediate (acute);Delayed(Chronic)

SARA SECTION 302 CHEMICALS: No regulated constituent present at OSHA thresholds

SARA SECTION 313 CHEMICALS: No regulated constituent present at OSHA thresholds

Section XVI - Other information

NFPA RATINGS:

Health	Flammability	Reactivity
3	0	1

The data contained in this safety data sheet has been prepared based upon an evaluation of the ingredients contained in the product, their concentrations in the product and potential interactions. The information is offered in good faith and is believed to be accurate. It is furnished to the customer who is urged to study it carefully to

SAFETY DATA SHEET
