

Safety Data Sheet

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Cationic Powder Polyacrylamide CP- 80
Company: 3rd Street Polymers
Address: 828 Knox Rd. McLeansville, NC 27302
Email: wbeasley@thirdstreetservices.com
SDS Document No.: 3S02
Revision: 2024 Jun
Next Review: 2029 Jun

SECTION 2: HAZARDS IDENTIFICATION

Not classified as Dangerous Goods by the criteria of the GB12268-2012

Not considered hazardous in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Poisons Schedule (SUSMP): Non-allocated.

SECTION 3: INFORMATION OF INGREDIENTS

Product Name: Cationic Polyacrylamide
Composition

Chemical name	CAS-No.	Concentration (%)
Citric acid	77-92-9	>= 1 - < 10
Adipic acid	124-04-9	>= 1 - < 10

SECTION 4: FIRST AID MEASURES

Contact with skin:

Wash with plenty of water and soap, if irritation occurs seek medical advice.

Contact with eyes:

Wash immediately with water for at least 15 minutes. If there is any irritation,

OBTAIN IMMEDIATELY MEDICAL ATTENTION.

Swallowing:

Do not induce vomiting. Do not give anything to an unconscious person. Check for breathing and pulse, if present, place in the recovery position and obtain medical attention. If conscious rinse out the mouth with water. Give 3-4 of liter of water to drink immediately and repeat drinks of water at a rate of a cupful (approx. 250 mL) every 10 minutes.

SEEK A MEDICAL EXAMINATION IMMEDIATELY and present the safety data sheet.

Inhalation:

Ventilate the premises. The patient is to be removed immediately from the contaminated premises and made to rest in a well ventilated area. Should the patient feel unwell, OBTAIN MEDICAL ATTENTION.

Safety Data Sheet

SECTION 5: FIRE-FIGHTING MEASURES

Recommended extinguishers:

CO2, Foam, Chemical powders, according to the materials involved in the fire. Avoid using water, due to slippery properties of the wet product.

Extinguishers not to be used:

The product is compatible with standard fire-fighting agents.

Risks arising from combustion:

Avoid inhaling the fumes. Dust may be explosive if mixed with air in critical proportion and in the presence of a source of ignition.

Protective equipment:

Firefighters, and others exposed, use protection for the respiratory tract.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Measures for personal safety:

Use gloves and protective clothing. Avoid dust formation. Wear protective dust mask.

Environmental measures:

Limit leakages with earth or sand. If the product has escaped into a watercourse, into the drainage system, or has contaminated the ground or vegetation, notify the competent authorities.

Cleaning methods:

Sweep up and shovel into a suitable container for disposal. Residues or small spillages should be hosed away completely with plenty of water. Spilled product which becomes wet or spilled aqueous solution create a hazard because of the slippery nature. The spillage should be contained with earth or sand and removed for disposal.

SECTION 7: HANDLING AND STORAGE

Handling precautions:

As with many organic powders flammable dust clouds may be formed. Avoid creating dust and keep away from sources of ignition. Do not breathe dust. Do not eat, drink or smoke while working. Remove contaminated clothing immediately and launder before reuse. Wash hands after use.

Incompatible materials:

None in particular. Material is hygroscopic and should not be exposed to moisture.

Storage conditions:

Instructions as regards storage premises:

Store the product in a well-ventilated area, dry place. Avoid wet and humid conditions. Avoid extremes of temperature. Maintain good housekeeping to control accumulations.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters:

The product contains no substances for the exposure risk.

Safety Data Sheet

Precautionary measures:

Give adequate ventilation to the premises where the product is stored and/or handled to ensure ventilation is adequate to maintain air concentration below Workplace Exposure Standards. Avoid generating and breathing in dusts. Use with local exhaust ventilation or while wearing dust mask. Keep bag closely tight when not in use.

Respiratory protection:

Where exposures are below the established limit, no respiratory protection is required. Where exposures exceed the established exposure limit, use respiratory protection recommended for the material and level of exposure.

Protection for hands:

Use protective gloves in P.V.C., or in plastic material/rubber.

Eye protection:

Use protective goggles.

Protection for skin:

Wear lightweight protective clothing.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Color:	White
Appearance:	Granular Powder
pH Value:	4 – 6 (25°C, 0.25%)
Melting Point:	>350°C
Solid/Gas Flammability:	As with many organic powders flammable dust clouds may form
Bulk Density:	0.65-0.75 g/cm ³
Solubility in Water:	Limited by viscosity
D e c o m p o s i t i o n	
Temperature:	>150°C
Auto-ignition Temperature:	>150°C
Vapor Pressure (20°C)	No data available
Explosive Properties:	No data available
Oxidizing properties:	No data available

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability:

Stable under recommended storage conditions.

Conditions to avoid:

Stable at room temperature. Follow the industrial hygiene norms as for the handling and storage of chemicals. Avoid extremes of temperature and wet and humid conditions.

Safety Data Sheet

Substances to avoid:

Avoid contact with strong oxidants. Avoid contact with alkaline materials and strong oxidizing agents which will degrade the polymer.

Hazardous decomposition products:

In case of combustion there is development of CO, CO₂, NO_x, HCl, NH₃ and SO₂.

SECTION 11: TOXICOLOGICAL INFORMATION

No adverse health effect is expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that arise if the product is mishandled and over exposure occurs are:

Ingestion:	No adverse effects expected, however, large amounts may cause nausea and vomiting.
Eye Contact:	May be an eye irritant. Exposure to the dust may cause discomfort due to particulate nature. May cause physical irritation to the eye.
Skin Contacts:	Repeated or prolonged skin contact may lead to irritation.
Inhalation:	Breathing in dust may result in respiratory irritation.
Chronic Effect:	No information available for this product.
Acute Toxicity:	No LD50 data available for the material.

SECTION 12: ECOLOGICAL INFORMATION

Avoid contaminating waterways.

This material is not classified as dangerous for the environment. The effects on aquatic organisms are due to an external (non-systemic) mode of action and are significantly reduced within 30 minutes due to binding of the product to dissolved organic carbon and inorganic sorbents such as clays and silts.

SECTION 13: DISPOSAL CONSIDERATIONS

General Product Waste

The product should not be allowed to enter drains, water courses or the soil.

Dispose of in accordance with all applicable local, state and federal regulations.

Contaminated Packaging

Empty remaining contents.

Dispose of as unused product.

Empty containers should be taken to an approved waste handling site for recycling or disposal.

SECTION 14: TRANSPORT INFORMATION

Road and Rail Transport:

Not classified as Dangerous Goods by transport by Road and Rail. NON-DANGEROUS GOODS.

Safety Data Sheet

Marine Transport:

Not classified as Dangerous Goods by criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by Sea. NON-DANGEROUS GOODS.

Air Transport:

Not classified as Dangerous Goods by criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air. NON-DANGEROUS GOODS.

SECTION 15: REGULATORY INFORMATION

Based on available information, not classified as hazardous

Poison Schedule (SUSMP): Non-allocated.

All the constituents of this material comply with the requirements of following regulations ISO11014-2009:

1. Regulation (EC) No.1272/2008 Safety data sheet for chemical products – Classification, Labeling and Packaging
2. GB12268-2012 List of dangerous goods
3. GB6944-2005 Classification and code of dangerous goods

California Proposition 65

Prop. 65 warnings are not required for this product based on the results of a risk assessment performed on the product as delivered and when used as intended.

SECTION 16: OTHER INFORMATION

This SDS summarizes to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since the vendor cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material. If clarification or further information is needed, the user should email using the contact at the contact details on page 1.
