PLANT CITY, FL 33563

IDENTITY

AWC® C-234

Section I Company and Product Identification

AMERICAN WATER CHEMICALS® 1802 Corporate Center Lane Plant City, FL 33563 Telephone Number: (813)-246-5448	ChemTel phone Number: In the U.S.: 1-800-255-3924 International: 1-813-248-0585 Australia: 1-300-954-583 Brazil: 0-800-591-6042 China: 400-120-0751 India: 000-800-100-4086 Mexico: 800-099-0731
Date Prepared: 11/21/03	Date Revised: October, 2020

Trade Name	AWC C-234
Product Family	RO, NF membrane cleaner

Section II – Hazards Identification

Corrosive Liquid Signal Word : Danger Acute Toxicity: Oral, Category 4 Harmful if Swallowed Skin Corrosion/Irritation, Category 1B Causes severe skin burns and eye damage Inhalation: Category 4: Harmful if inhaled	
GHS Hazard Phrases	H302: Harmful if swallowed H314: Causes Severe skin burns and eye damage
GHS Precaution Phrases	P264: Wash hands thoroughly after handling P260: Do not breathe dust,fumes,gas,vapor,spray. P280: Wear protective gloves, clothing, eye protection, face protection.
GHS Response Phrases	P301+312: IF SWALLOWED: call a poison center or doctor if you feel unwell P330: Rinse mouth P303+361+353: IF ON SKIN or hair Remove/take off all contaminated clothing rinse skin with water/shower P363: Wash contaminated clothing before reuse P305+351+338" IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. P301+330+331: IF SWALLOWED Rinse mouth do NOT induce vomiting. P304+340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P310:Immediately call a poison center
GHS Storage and Disposal Phrases	Please refer to section 7 for storage and section 13 for Disposal information

SAFETY DATA SHEET

PLANT CITY, FL 33563

Route(s) of Entry:	Inhalation? Y	Skin? Y	Ingestion? Y
Health Hazards (Effects of Acute and Chronic Overexposure)			
Inhalation: Severely irritating to internal tissues.			
Eye Contact: Causes severe irritation and burns.			
Skin Contact: Causes severe irritation and burns			
Ingestion (Swallowing): Harmful if inhaled due to low pH. May cause severe irritation to internal tissues.			

Section III - Hazard Ingredients/Composition Information

Hazardous Components (Chemical Name)	CAS #	%	EC #	Risk Phrases
Phosphoric Acid	7664-38-2	< 10%	231-633-2	R34

Section IV – First Aid Procedures

Inhalation: Remove victim to fresh air and get immediate medical attention. Give oxygen if congested.
Eye Contact: Immediately flush with clear water for 15 minutes and get immediate medical attention at once.
Skin Contact: Wash with soap and water or plain water. If burns occur get medical attention.
Ingestion (Swallowing): Drink several glasses of water and get immediate medical attention. Do not induce vomiting.

MOST IMPORTANT SYMPTOMS	
Symptoms/Injuries	Causes severe skin burns and eye damage
Symptoms/Injuries after eye contact	Causes severe eye damage
Symptoms/Injuries after ingestion	Swallowing a small quantity of this material will result in a serious health hazard.

Section V - Fire Fighting Measures

Flash Point (Method Used) None	Flammable Limits: NE
Extinguishing Media: Water spray, fog or mist. Foam. Powder. Carbon dioxide (CO2).	
Auto ignition temp: Noncombustible.	
Special Fire Fighting Procedures and Protective Equipment: Do not enter fire area without proper protective equipment, including respiratory protection. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Avoid (reject) fire-fighting water to enter environment.	
Unusual Fire and Explosion Hazards: None Known	
Hazardous Decomposition or Combustion Byproducts: Phosphate compounds	

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

Section VI – Accidental Release Measures

Steps to Be Taken in Case Material is Released or Spilled: Small spills may be neutralized with lime or soda ash and flushed with copious quantities of water, preferably to a sanitary sewer or waste treatment facility. Larger spills may be absorbed in noncombustible absorbent and sweepings disposed of in an approved landfill.

Additional Information: Planning ahead is essential for handling spills. Proper equipment and trained employees should be readily available to correct a spill situation. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers and public waters. Avoid release to the environment.

Section VII - Handling and Storage

Precautions to Be taken in Handling (General):	Avoid spilling, skin and eye contact. Ventilate well, avoid breathing vapours. Use approved respirator if air contamination is above accepted level. Keep in cool, dry, ventilated storage and closed containers. Protect from light, including direct sunrays. Keep away from direct sunlight.
Precautions for safe storage and any incompatibilities	Comply with applicable regulations. Keep only in the original container in a cool, well ventilated place away from incompatible materials. Keep container closed when not in use Keep away from direct sunlight.

Section VIII – Exposure Controls and Personal Protection

Components (Specific Chemical Identity; Common Name(s))	OSHA PEL	TWA8 ACGIH	STEL ACGIH	Other Limits Recommended
Phosphoric Acid	None	1 mg/m ³	3 mg/m ³	NA

Primary Route of Exposure: Body contact.

Target Organs: Human tissue will be damaged on contact.

Respiratory Protection: Special cartridge for inorganic gases and vapours (E.g. Cl₂, H₂S, HCN).
Self-contained breathing apparatus

Skin Protection: Rubber or plastic-impervious and/or waterproof.

Protective Gloves: Rubber, nitrile, neoprene, PVL.

Eye Protection: Splash proof safety goggles and face shield.

Other Protective Clothing or Equipment: Eye wash facility and safety shower in immediate area. Rubber boots. Rubbers over leather shoes are not recommended. Rubber apron, rainwear or disposal type suit should be worn.

Section IX - Physical/Chemical Characteristics

Boiling Point: 107°C	Percent Volatile: NE
Viscosity : NE	Specific Gravity (H2O = 1): 1.17 ± 0.05
Solubility in Water: Complete	pH: (as is) @ 25°C: < 2
Appearance and Odor: Clear colorless to yellow liquid having essentially no odor.	

NR: NOT REQUIRED, NE: NOT ESTABLISHED, NA: NOT APPLICABLE

Section X – Stability & Reactivity Data

Stability: Stable under normal conditions.
Conditions to avoid: None known
Incompatibility (Materials to Avoid): Metals, concentrated Alkalis.
Hazardous Decomposition Products: Oxides of carbon and phosphorous may be released if water is evaporated by the heat of a fire.
Hazardous Polymerization: Will not polymerize.
Additional Information: None

Section XI– Toxicological Information

Available data on closely related material indicates the following: Oral LD50 RAT: >2,000 mg/kg NOTE - Estimated value Dermal LD50 RABBIT: >2,000 mg/kg NOTE - Estimated value
Mutagenic: Not listed.
Teratogenic: Not listed.
Reproductive Toxicity: Not listed.
Primary Route of Exposure: Body contact.
Target Organs: All human tissue damaged on contact.

Section XII – Ecological Information

Available data on closely related material indicates the following: Aquatic Toxicology Daphnia magna 48 Hour Static Renewal Bioassay (pH adjusted): LC50= 1890; No Effect Level= 1060 mg/L Fathead Minnow 96 Hour Static Bioassay with 48-Hour Renewal (pH adjusted) 0% Mortality= 2000 mg/L Persistence and degradability: BOD-28 (mg/g): 59 (estimated based on similar materials) BOD-5 (mg/g): 39 (estimated based on similar materials) COD (mg/g): 188 (estimated based on similar materials) TOC (mg/g): 84

Section XIII - Disposal Consideration

Waste Disposal Method: Small quantities may be diluted with water and flushed to a sanitary sewer. Liquids cannot be sent to landfills unless solidified. Larger quantities may be adsorbed and buried in an approved landfill. However, obey all federal, state or local regulations.

Section XIV - Transport information

D.O.T. Proper Shipping Name: CORROSIVE LIQUID, N.O.S. (Contains phosphoric acid)	D.O.T. Hazard Class: 8 D.O.T. LABEL: CORROSIVE
ID No: UN 1760	Packing Group: III

Section XV - Regulatory information

TSCA: All components of this product are listed in the TSCA inventory.
CERCLA AND/OR SARA REPORTABLE QUANTITY (RQ): 3,645 gallons due to PHOSPHORIC ACID;
SARA SECTION 312 HAZARD CLASS: Immediate(acute);Delayed(Chronic)
SARA SECTION 302 CHEMICALS: No regulated constituent present at OSHA thresholds
SARA SECTION 313 CHEMICALS: No regulated constituent present at OSHA thresholds
Potable Water Approval: This product is NSF/ANSI Standard 60 certified. Maximum use level = NA

Section XVI - Other information

NFPA RATINGS:

Health	Flammability	Reactivity
3	0	0

The data contained in this material safety data sheet has been prepared based upon an evaluation of the ingredients contained in the product, their concentrations in the product and potential interactions. The information is offered in good faith and is believed to be accurate. It is furnished to the customer who is urged to study it carefully to become aware of hazards, if any, in the storage, handling, use and disposal of the product; and to insure his employees are properly informed and advised of all safety precautions required.
