AWC® A-782

Section I Company and Product Identification

AMERICAN WATER CHEMICALS® 1802 CORPORATE CENTER LANE PLANT CITY, FL 33563 Telephone Number: (813)-246-5448	ChemTel phone Number: In the U.S.: 1-800-255-3924 International: 1-813-248-0585 Australia: 1-300-954-583 Brazil: 0-800-591-6042 China: 400-120-0751 India: 000-800-100-4086 Mexico: 800-099-0731
Date Prepared: 11/21/03	Date Revised: October 2020

Trade Name	AWC® A-782
Product Family	Corrosion Inhibitor

Section II – Hazards Identification

Signal Word : WARNING Acute Toxicity: Oral, Category 5 May be harmful if swallowed. Skin Corrosion/Irritation, Category 5 May be harmful in contact with skin Inhalation: Category 5 May be harmful if inhaled	
GHS Hazard Phrases	H303 + H313: May be harmful if swallowed or in contact with skin H333: May be harmful if inhaled.
GHS Precaution Phrases	P103: Read label before use
GHS Response Phrases	P311: Call a poison center/doctor/...if you feel unwell
GHS Storage and Disposal Phrases	Please refer to section 7 for storage and section 13 for Disposal information

Route(s) of Entry:	Inhalation? Yes	Skin? No	Ingestion? Yes
Health Hazards (Effects of Acute and Chronic Overexposure)			
Inhalation: May be harmful if inhaled.			
Eye Contact: May cause eye irritation.			
Skin Contact: May be slightly irritating to skin			

SAFETY DATA SHEET

PLANT CITY, FL 33563

Ingestion (Swallowing): May be Harmful if swallowed. Phosphates are slowly and incompletely absorbed when ingested, and seldom result in systemic effects. Such effects, however, have occurred. Symptoms may include vomiting, lethargy, diarrhea, blood chemistry effects, heart disturbances and central nervous system effects. The toxicity of phosphates is due to their ability to sequester calcium.

Section III - Hazard Ingredients/Composition Information

Hazardous Components (Chemical Name)	CAS #	%	EC #	Risk Phrases
Polyphosphate, Sodium Salt	Proprietary	10-36%	N/A	R22,38
Orthophosphate, Sodium Salt	Proprietary	10-36%	N/A	R22,38
Water	N/A	<55 %	N/A	N/A

Section IV – First Aid Procedures

Inhalation: Immediately remove to fresh air. If breathing has stopped, give artificial respiration or oxygen. See a physician if irritation of the eyes, skin or respiratory tract occurs.

Eye Contact: Immediately flush with plenty of water for at least 15 minutes holding lids apart to ensure flushing of the entire surface. Call a physician. Remove material from skin and clothing. Remove contact lenses immediately if possible.

Skin Contact: Immediately flush skin with plenty of water while removing contaminated clothing and shoes. Thoroughly wash before reuse or discard. Get medical help if irritation occurs.

Ingestion (Swallowing): If conscious, immediately give several glasses of water or milk. Do not induce vomiting. NEVER give anything by mouth to an unconscious person. Take immediately to hospital or physician.

MOST IMPORTANT SYMPTOMS	
Symptoms/Injuries	May be slightly irritating to skin.
Symptoms/Injuries after eye contact	May be irritating to eyes.
Symptoms/Injuries after ingestion	May cause vomiting, lethargy, diarrhea.

Section V - Fire Fighting Measures

Flash Point (Method Used) None	Flammable Limits: NE
Extinguishing Media: Water spray, dry chemical, CO2, or other class B extinguishing agent. This material does not burn. Use extinguishing media appropriate to the surrounding fire conditions	
Auto ignition temp: Noncombustible.	
Special Fire Fighting Procedures and Protective Equipment: This material does not burn. Move containers from fire area if it can be done without risk. Otherwise, use water in flooding quantities as a spray or fog to keep fire-exposed containers cool and absorb heat to help prevent rupture. Do not enter without wearing specialized protective equipment suitable for the situation. Firefighter's normal protective equipment (Bunker Gear) will not provide adequate protection. Chemical resistant clothing (e.g. chemical splash suit and positive pressure self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) may be necessary.	
Unusual Fire and Explosion Hazard: N/A	

SAFETY DATA SHEET

PLANT CITY, FL 33563

Hazardous Decomposition or Combustion Byproducts: N/A

Section VI – Accidental Release Measures

Steps to Be Taken in Case Material is Released or Spilled: When handling spill and leaks, follow good industrial hygiene and safety practices as outlined in this document. Dispose of in compliance with local regulations pertaining to phosphates. In case of spills, prevent discharge to the environment (use dykes for large spills). Absorb spillage with earth, sand, clay, sawdust or other inert absorbent material which does not react with spilled chemical. Place all spilled material, contaminated sorbent materials, contaminated dirt, and other contaminated material in chemical waste container. Flush residual spill area with large amounts of water.

Additional Information: Planning ahead is essential for handling spills. Proper equipment and trained employees should be readily available to correct a spill situation. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers and public waters. Avoid release to the environment.

Section VII - Handling and Storage

Precautions to Be taken in Handling (General):	Empty drums as thoroughly as possible to facilitate disposal. Do not use with incompatible materials such as strong acids and strong bases. Label and avoid damaging containers. Maintain handling equipment. Practice good housekeeping. It is good practice to keep storage containers closed when not in use and when empty. Provide ventilation to minimize exposure. Use local mechanical exhaust ventilation at sources of air contamination such as open process equipment.
Precautions for safe storage and any incompatibilities	Keep container closed when not in use. Protect from freezing. Do not store in elevated temperatures. Keep away from direct sunlight.

Section VIII – Exposure Controls and Personal Protection

Components (Specific Chemical Identity; Common Name(s))	OSHA PEL	TWA8 ACGIH	STEL ACGIH	Other Limits Recommended
None has been established	None	None	None	NA

Primary Route of Exposure: Inhalation

Target Organs: None Known

Respiratory Protection: Approved NIOSH respirator.

Skin Protection: Rubber or plastic-impervious and/or waterproof.

Protective Gloves: Wear impervious rubber or plastic gloves.

Eye Protection: Wear chemical goggles and a face shield and have eyewash station immediately available.

Other Protective Clothing or Equipment: Eye wash facility and safety shower in immediate area. Rubber boots. Rubbers over leather shoes are not recommended. Use local natural or mechanical exhaust ventilation to minimize exposure at sources of air contamination such as open process equipment. Engineering or administrative controls should be implemented to control mist

Section IX - Physical/Chemical Characteristics

Boiling Point: >101°C (213°F)	Percent Volatile: NE
Viscosity : NE	Specific Gravity (H₂O = 1) 1.40± 0.10
Solubility in Water: Complete	pH: 4 – 7
Appearance and Odor: Clear liquid - colorless to slight yellow tint	

NR: NOT REQUIRED, NE: NOT ESTABLISHED, NA: NOT APPLICABLE

Section X – Stability & Reactivity Data

Stability: Stable under normal conditions of storage and handling. Usually stable in alkaline aqueous solution, but breaks down (hydrolyzes) to orthophosphate under acidic conditions.
Conditions to avoid: Do not expose to extreme temperatures.
Incompatibility (Materials to Avoid): Strong Oxidizing Agents (eg. perchlorates, peroxides) and strong acids (eg. Sulfuric acid) - reaction may be violent if mixed with this product at full strength. However, this product can safely be dosed into a water supply that contains dosage levels of oxidizers or acids that meet drinking water standards.
Hazardous Decomposition Products: When involved in a fire, the material may form toxic fumes of phosphorous oxides.
Hazardous Polymerization: Does not occur
Condition to avoid: None known
Additional Information: none

Section XI– Toxicological Information

Available data on closely related material indicates the following: ORAL LD50(Rats): =3053 mg/kg Skin Irritation (rabbit, guinea pig): Negligible irritation and no visible tissue damage was observed after a 50% solution was applied to intact and abraded skin. Acute Overexposure: Irritating to body tissue with which it comes into contact. Chronic Overexposure: No known cases of chronic poisoning due to phosphate solutions have been reported. May sequester calcium and cause calcium phosphate deposits in the kidneys. Carcinogenicity: None of the components have been classified as a carcinogen by OSHA, NTP, and IARC. Medical Conditions Generally Aggravated by Exposure: Phosphate solution will cause further irritation of tissue, open wounds, burns or mucous membranes.
Mutagenic: Not listed.
Teratogenic: Not listed.
Reproductive Toxicity: Not listed.
Primary Route of Exposure: Inhalation

Target Organs: Not Listed

Section XII – Ecological Information

Biodegradation: No specific biodegradation data is available for this product.

Section XIII - Disposal Consideration

Waste Disposal Method: Always dispose of in accordance with federal, state and local regulations pertaining to phosphates. Consult your attorney or appropriate regulatory officials for information on such disposal. Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261.3.

Section XIV - Transport information

D.O.T. Proper Shipping Name: N/A	D.O.T. Hazard Class: N/A D.O.T. LABEL: N/A
ID No: N/A	Packing Group: N/A

Section XV - Regulatory information

US Federal Regulations

TSCA: All components in this product are listed on the TSCA inventory. Health & Safety Reporting List: None of the chemicals in this product are on the Health & Safety Reporting List. Chemical Test Rules: None of the chemicals in this product are under a Chemical Test Rule. Section 12b: None of the chemicals in this product are listed under TSCA Section 12b. TSCA Significant New Use Rule: None of the chemicals in this product have a SNUR under TSCA. CERCLA Hazardous Substances and corresponding RQs: None of the chemicals in this product have an RQ.

None of the chemicals in this product have a TPQ. SARA Codes: Acute Section 313:

None of chemicals in this product are reportable under Section 313. Clean Air Act:

This material does not contain any hazardous air pollutants.

This material does not contain any Class 1 or Class 2 Ozone depleters. Clean Water Act: None of the chemicals in this product are listed as Hazardous Substances under the CWA. None of the chemicals in this product are listed as Priority Pollutants under the CWA. None of the chemicals in this product are listed as Toxic Pollutants under the CWA. OSHA: None of the chemicals in this product are considered highly hazardous by OSHA.

State: None of the chemicals in this product are present on state lists from CA, PA, WI, MA, or NJ. California Prop 65:

California No Significant Risk Level: None of the chemicals in this product are listed.

European/International Regulations

European Labeling in Accordance with EC Directives: Hazard Symbols: None

Risk Phrases: 22 Harmful if swallowed. 38 Irritating to skin

Safety Phrases: 2 Keep out of reach of children 61 Avoid releases to the environment. WGK (Water Danger/Protection): None

Canada - DSL/NDL:

All components are listed on Canada's DSL List Canada – WHMIS:

None of the components in this product could be classified as hazardous in accordance with the hazard criteria of the Controlled Products Regulations. Canadian Ingredient Disclosure List: None of the components in this

SAFETY DATA SHEET

Page 6

product are listed on the Canadian Ingredient Disclosure List.
Potable Water Approval: This product is NSF/ANSI Standard 60 certified.

Section XVI - Other information

NFPA RATINGS:

Health	Flammability	Reactivity
1	0	0

The data contained in this material safety data sheet has been prepared based upon an evaluation of the ingredients contained in the product, their concentrations in the product and potential interactions. The information is offered in good faith and is believed to be accurate. It is furnished to the customer who is urged to study it carefully to become aware of hazards, if any, in the storage, handling, use and disposal of the product; and to insure his employees are properly informed and advised of all safety precautions required.
