PLANT CITY, FL 33563

IDENTITY

Megaflux® Si

Section I Company and Product Identification

AMERICAN WATER CHEMICALS® 1802 CORPORATE CENTER LANE PLANT CITY, FL 33563 Telephone Number: (813)-246-5448	ChemTel phone Number: In the U.S.: 1-800-255-3924 International: 1-813-248-0585 Australia: 1-300-954-583 Brazil: 0-800-591-6042 China: 400-120-0751 India: 000-800-100-4086 Mexico: 800-099-0731
Date Prepared: July 2023	Date Revised: December 2023

Trade Name	Megaflux® Si
Product Family	RO, NF Scale Inhibitor

Section II – Hazards Identification

Corrosive Liquid Signal Word: WARNING Acute Toxicity: Oral: Category 4 Harmful if Swallowed Skin Corrosion/Irritation: Category 2 Causes skin irritation in contact with skin. Inhalation: Category 4 Harmful if Inhaled Eye: Category 1 Causes serious eye damage.	
GHS Hazard Phrases	H290: May be corrosive to metals H302: Harmful if swallowed H315: Causes skin irritation H318: Causes serious eye damage H332: Harmful if inhaled
GHS Precaution Phrases	P264: Wash hands thoroughly after handling P260: Do not breathe dust, fumes, gas, vapor, spray. P280: Wear protective gloves, clothing, eye protection, face protection.
GHS Response Phrases	P301+312: IF SWALLOWED: call a poison center or doctor if you feel unwell P330: Rinse mouth P303+361+353: IF ON SKIN or hair Remove/take off all contaminated clothing rinse skin with water/shower P363: Wash contaminated clothing before reuse P305+351+338: IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. P301+330+331: IF SWALLOWED Rinse mouth do NOT induce vomiting.

SAFETY DATA SHEET

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

	P304+340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P310: Immediately call a poison center
GHS Storage and Disposal Phrases	Please refer to section 7 for storage and section 13 for Disposal information

Route(s) of Entry:	Inhalation? Y	Skin? Y	Ingestion? Y
Health Hazards (Effects of Acute and Chronic Overexposure)			
Inhalation: Harmful if inhaled. Can cause shortness of breath, upper respiratory tract irritation, sore throat, coughing or burning sensation.			
Eye Contact: Causes eye burns. Injury may be permanent.			
Skin Contact: No more than slightly irritating to skin.			
Ingestion (Swallowing): Harmful if swallowed. Significant adverse health effects are not expected to develop if only small amounts (less than a mouthful) are swallowed.			

Section III - Hazard Ingredients/Composition Information

Hazardous Components (Chemical Name)	CAS #	%	EC #	Risk Phrases
Proprietary blend containing Organophosphonic Acids	Proprietary blend	> 25%	N/A	R22-35
Silica Dispersants	Proprietary blend	> 20%	N/A	N/A

Section IV – First Aid Procedures

Inhalation: Immediate first aid is not likely to be required. If symptoms occur, remove to fresh air. Remove material from eyes, skin and clothing.
Eye Contact: Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove any contact lenses. Get medical attention. Remove material from skin and clothing.
Skin Contact: Immediate first aid is not likely to be required. This material can be removed with water. Wash heavily contaminated clothing before reuse.
Ingestion (Swallowing): A physician or Poison Control Center can be contacted for advice. Wash heavily contaminated clothing before reuse

MOST IMPORTANT SYMPTOMS	
Symptoms/Injuries	Causes skin irritation
Symptoms/Injuries after eye contact	Causes eye burns. Injury may be permanent.
Symptoms/Injuries after ingestion	Significant adverse health effects are not expected to develop if only small amounts (less than a mouthful) are swallowed.

Section V - Fire Fighting Measures

Flash Point (Method Used) None	Flammable Limits: NE
Extinguishing Media: Water spray, foam, dry chemical, or carbon dioxide	
Auto ignition temp: Noncombustible.	

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

Special Fire Fighting Procedures and Protective Equipment: Firefighters and others exposed, wear self-contained breathing apparatus. Equipment should be thoroughly decontaminated after use.

Unusual Fire and Explosion Hazard: Decomposes in a fire giving off irritant fumes.

Hazardous Decomposition or Combustion Byproducts: Carbon monoxide (CO); carbon dioxide; phosphines.

Section VI – Accidental Release Measures

Steps to Be Taken in Case Material is Released or Spilled: Use personal protection recommended in section VIII. Keep out of drains and water courses. Contain large spills with dikes and transfer the material to appropriate containers for reclamation or disposal. Absorb remaining material or small spills with an inert material and then place in a chemical waste container. Neutralize washings with soda ash or lime. Flush spill area with water.

Additional Information: Planning ahead is essential for handling spills. Proper equipment and trained employees should be readily available to correct a spill situation. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers and public waters. Avoid release to the environment.

Section VII - Handling and Storage

Precautions to Be taken in Handling (General):	Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or mist. Keep container closed. Use with adequate ventilation. Wash thoroughly after handling. Emptied containers retain vapor and product residue. Observe all recommended safety precautions until container is cleaned, reconditioned or destroyed. The reuse of this material's container for non-industrial purposes is prohibited and any reuse must be in consideration of the data provided in this material safety data sheet. Keep away from direct sunlight
Precautions for safe storage and any incompatibilities	Temperature: >0C Suitable material of construction: Glass lining; PVC; Polypropylene; glass reinforced plastic; polyethylene. Unsuitable materials of construction: mild steel; carbon steel; aluminum; other metals. General: Freeze sensitive. Keep in a cool, dry well ventilated place. Stable under normal conditions of handling and storage.

Section VIII – Exposure Controls and Personal Protection

Components (Specific Chemical Identity; Common Name(s))	OSHA PEL	TWA8 ACGIH	STEL ACGIH	Other Limits Recommended
None has been established	None	None	None	NA

Primary Route of Exposure: Body contact.

Target Organs: Skin on contact

Respiratory Protection: Wear appropriate mask.

SAFETY DATA SHEET

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

Skin Protection: Rubber or plastic-impervious and/or waterproof.	
Protective Gloves: Rubber, nitrile, neoprene, PVL.	Eye Protection: Splash proof safety goggles and face shield.
Other Protective Clothing or Equipment: Eye wash facility and safety shower in immediate area. Rubber boots. Rubbers over leather shoes are not recommended. Rubber apron, rainwear or disposal type suit with hard hat should be worn.	

Section IX - Physical/Chemical Characteristics

Boiling Point: NE	Percent Volatile: NE
Viscosity: (Brookfield) NE	Specific Gravity (H ₂ O = 1): 1.25 ± 0.05
Solubility in Water: Complete	pH: < 2
Appearance and Odor: Clear colorless to light yellow liquid with characteristic odor	
NR: NOT REQUIRED, NE: NOT ESTABLISHED, NA: NOT APPLICABLE	

Section X – Stability & Reactivity Data

Stability: Stable under normal conditions.
Conditions to avoid: Do not expose to extreme temperatures.
Incompatibility (Materials to Avoid): Attacks Many metals. Corrosive to aluminum and mild steel. Avoid contact with strong oxidizing agents and strong bases.
Hazardous Decomposition Products: Carbon Monoxide (CO), Carbon dioxide, phosphorus oxides (P _x O _y), phosphines products
Hazardous Polymerization: Will not polymerize.
Condition to avoid: Do not expose to extreme temperatures.
Additional Information: none

Section XI– Toxicological Information

Acute animal toxicity data (estimated values)
Oral: LD50, rat, 4,800 mg/kg, slightly toxic following oral administration.
Dermal: LD50, rabbit, 15,880 mg/kg, practically nontoxic after skin application in animal studies.
Eye irritation: rabbit, corrosive.
Skin irritation: rabbit, practically none irritating to skin (rabbit), 24 hr.
Repeat dose toxicity: rat & dog, diet, sub chronic, minor effects (less than lesions) were present in some animals at the end of the observation period.
Repeat dose toxicity: rat & dog, diet, chronic, minor, minor effects (less than lesions) were present in some animals at the end of the observation period.

Repeat dose toxicity Target organs affected (Bone): dog, subcutaneous, chronic, adverse effects observed in repeat dose studies.
Developmental toxicity: rat & rabbit, gavages, no birth defects were noted in rats given the active ingredients orally during pregnancy.
Reproductive toxicity: rat, diet, 2 generation, this material had no effect on reproduction or fertility.
Mutagenicity: No genetic effects were observed in standard tests using bacterial and animal cells.

AMERICAN WATER CHEMICALS®
1802 CORPORATE CENTER LANE
PLANT CITY, FL 33563

Section XII – Ecological Information

Environmental Toxicity (estimated values)
Invertebrates: 48 h, EC50 Water flea (*Daphnia magna*) 1054 mg/l
Fish: 96 h, LC50 Rainbow trout (*Oncorhynchus mykiss*) 720 mg/l
Algae: 96 h, EC50 Algae 6 mg/l

Section XIII - Disposal Consideration

Waste Disposal Method:

US EPA RCRA Status: this material when discarded is a hazardous waste as that term is defined by the Resource, Conservation and Recovery Act (RCRA), 40 CFR 261. See disposal considerations below for U.S. EPA disposal requirements. Consult regulatory officials for performance standards.
US EPA RCRA hazardous waste number: D002
Compound/Characteristic: Corrosivity
Disposal considerations: Deactivation. Consult 40 CFR 268.48 for concentration based standards.
Miscellaneous Advice: Local, state, provincial, and national disposal regulations may be more or less stringent. Consult your attorney or appropriate regulatory officials for information on such disposal.
This product should not be dumped, spilled, rinsed or washed into sewers or public waterways.

Section XIV - Transport information

D.O.T. Proper Shipping Name: CORROSIVE LIQUID, N.O.S. (contains organophosphonic acid)	D.O.T. Hazard Class: 8 D.O.T. LABEL: CORROSIVE
ID No: UN 1760	Packing Group: II
IMDG: Proper Shipping Name: CORROSIVE LIQUID, N.O.S. (contains organophosphonic acid)	IMDG Hazard Class: 8 IMDG LABEL: CORROSIVE
ID No: UN 1760	Packing Group: II
IATA: Proper Shipping Name: CORROSIVE LIQUID, N.O.S. (contains organophosphonic acid)	IATA Hazard Class: 8 IATA LABEL: CORROSIVE
ID No: UN 1760	Packing Group: II

Section XV - Regulatory information

This product does not contain hazardous substances at levels which require reporting.

Toxic Substance

Control Act (TSCA)

All components of this material are either listed or exempt from listing on the TSCA Inventory.

Proposition 65

To the best of our knowledge, there are no chemicals listed or require reporting.

Section XVI - Other information

NFPA RATINGS:

Health	Flammability	Reactivity
3	1	1

The data contained in this material safety data sheet has been prepared based upon an evaluation of the ingredients contained in the product, their concentrations in the product and potential interactions. The information is offered in good faith and is believed to be accurate. It is furnished to the customer who is urged to study it carefully to become aware of hazards, if any, in the storage, handling, use and disposal of the product; and to insure his employees are properly informed and advised of all safety precautions required.
